

**Public Workshop for the Chevy Chase Village South Water  
and Sewer Main Replacement Project**

**Hosted by Washington Suburban Sanitary Commission and Chevy Chase Village**

**Thursday, May 26, 2016, 7:00 p.m. – 9:00 p.m.  
The Chevy Chase Village Hall  
5906 Connecticut Avenue, Chevy Chase, MD 20815**

**PURPOSE OF THE WORKSHOP**

WSSC invites you to attend a public workshop for the Chevy Chase Village South Water and Sewer Main Replacement Project No. BR/CR5356B12. WSSC design consultant A Morton Thomas & Associates (AMT) are in the initial design phase of this project and would like to inform the affected residents of the impending construction in their neighborhood.

**PROJECT BACKGROUND**

There is an existing 4-inch water main and 8-inch sanitary sewer main located in a 10 foot easement along the back property line between Cedar Parkway and Kirkside Drive. This aging infrastructure was installed in 1927 and 1941 respectively and is at the end of its life expectancies. This project is a part of WSSC's commitment to repair, replace and rehabilitate its aging infrastructure.

WSSC invites affected homeowners to attend this workshop to gain information about the current design and future construction processes. Residents will also have an opportunity to ask questions and express any concerns about the project.

To learn more about WSSC's water main replacement process, please visit [www.wsscwater.com/wmr](http://www.wsscwater.com/wmr). Information about current and future WSSC projects can be found online at <https://gis.wsscwater.com/inyourneighborhood/>.

If you have any questions, I can be reached at (301)-206-8578 and at [Corey.Hutchings@wsscwater.com](mailto:Corey.Hutchings@wsscwater.com).

Sincerely,

Corey Hutchings, PE  
Project Manager – Infrastructure Systems Group
